

TEAMs Meeting – iOS – iPad/iPhone

Please Note – You must download the Teams App to access meetings on and iPad/iPhone

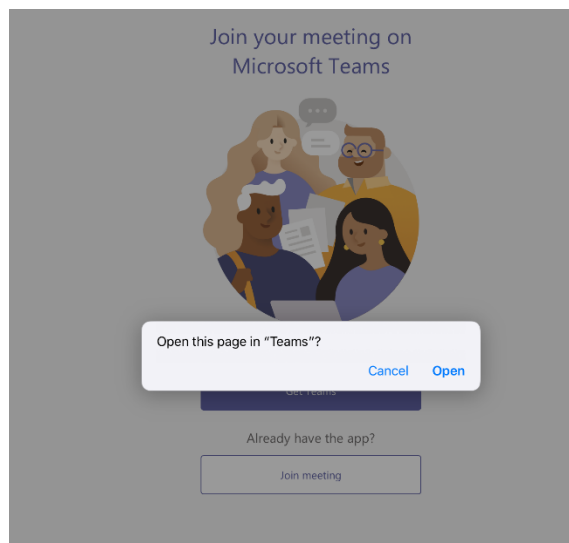

1. Download the Microsoft TEAMs App from the App Store

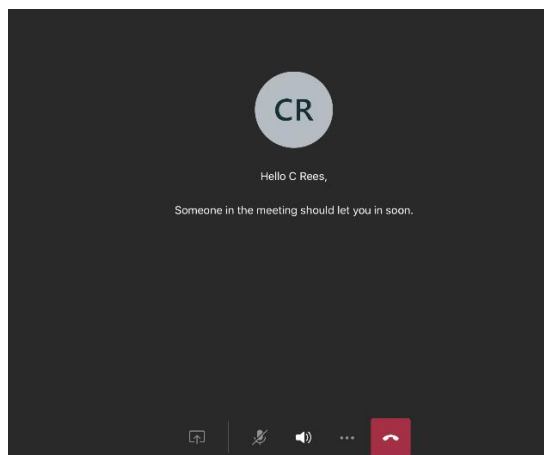

2. Once the App is downloaded, Click on the TEAMs meeting Join link that you have received.

Join Microsoft Teams Meeting

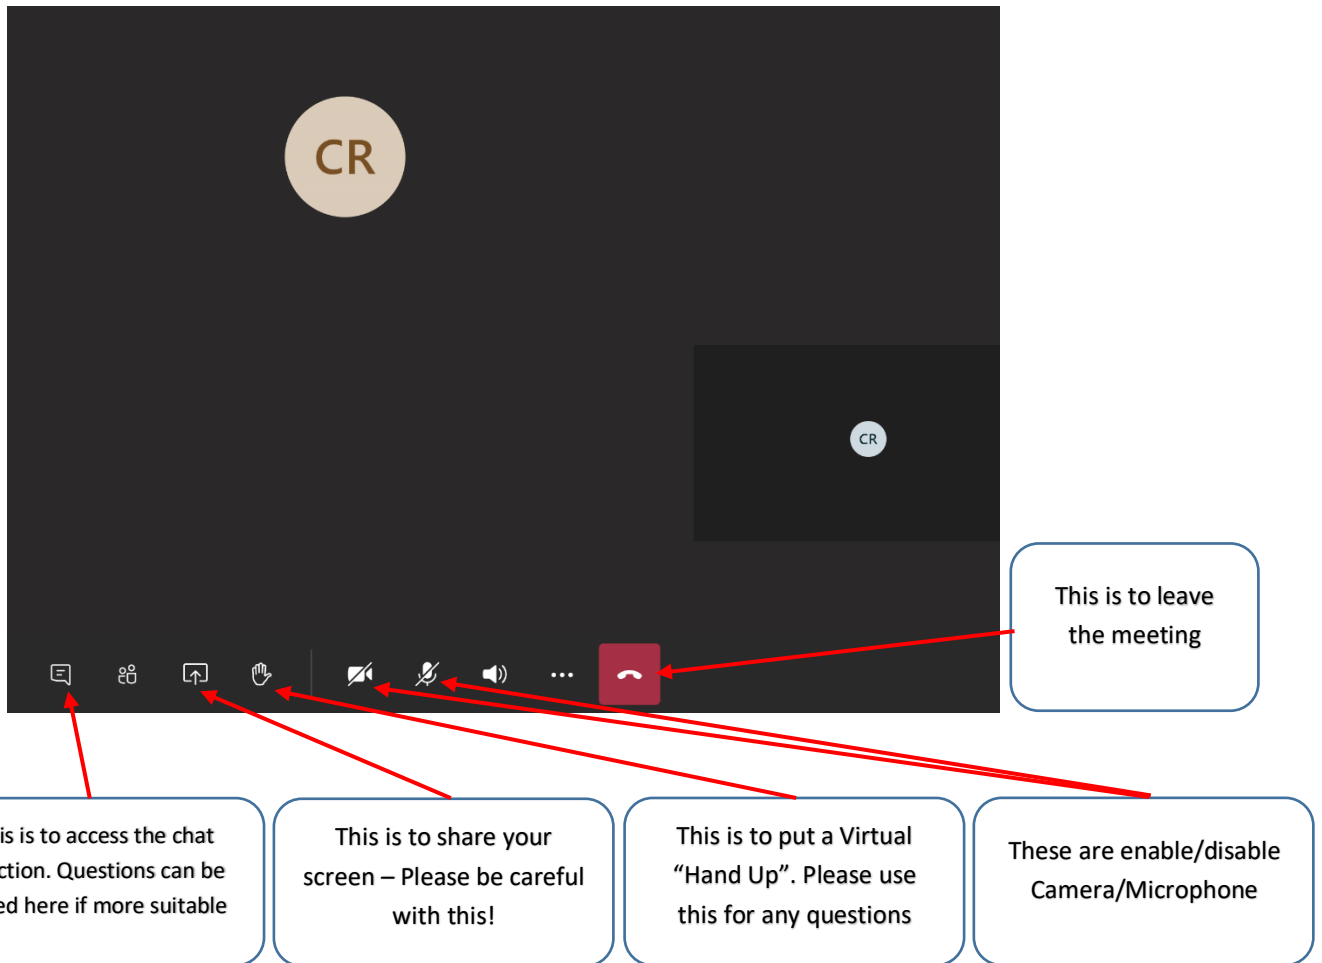

3. Choose “Open” to open the meetings in the App

4. The app will take you straight into the meeting. If the meeting has a “Virtual Lobby” you will be held there until the meeting organiser admits you to the meeting.

5. When the organiser starts the meeting, the display will change (See below). You will now get a toolbar at the bottom of the screen

Please Note – if the presenter is displaying a presentation or sharing their screen, you will not be able to see the presenters or other people’s camera displays.
